EPA is committed to working closely with response agencies and state and local officials to ensure the safety of citizens, respond to concerns and to evaluate impact to water contaminated by the Gold King Mine Release. EPA is sharing information as quickly as possible with the public as experts work to evaluate any effects the spill may have on drinking water, public health, agriculture, fish and wildlife. Please see our website for the latest information: <http://www2.epa.gov/region8/gold-king-mine-release-emergency-response>

Regular updates will be posted as they are available.

Shaun McGraff

Hello, my name is Vaughn Clark and I own Hotsy of the Four Corners. We sell and service pressure washers. We also rent high powered trailer mounted units.  
I am not sure exactly how we can be of assistance, but I felt I should reach out and let you know we are a resource in the area.  
One of our sister companies deals with water filtration and separation of solids from water they may also be a resource during the clean up process.

Sincerely

Vaughn Clark  
President. 970/749-8033
